Alltel Wireless debuts EVDO wireless broadband service in Farmington

High-speed wireless data services cover Gallup, Shiprock, Durango and Cortez; EVDO technology delivers speeds comparable to cable or DSL

Release date: November 21, 2006

FARMINGTON, N.M. - Alltel Wireless, America's largest network, is now offering Axxess Broadband service in Farmington and surrounding communities, including Shiprock, Aztec and Bloomfield. The coverage also is available in Gallup and extends to Durango and Cortez, Colo. This next generation EVDO (evolution data optimized) technology provides customers with unlimited wireless access to the Internet at speeds comparable to wired broadband connections such as cable modem or DSL.

Using the service, customers can access advanced business and entertainment applications from their laptops, smartphones or handsets at average speeds of 400 to 700 Kbps with maximum speeds of up to 2.4 Mbps. Axxess Broadband makes it easy to surf the Internet, access e-mail and calendars and download large, graphic-rich files while on the go.

"Alltel Wireless is committed to meeting the growing data needs of our customers," said Terri Larson, vice president of business solutions for Alltel Wireless in New Mexico. "Axxess Broadband Internet service delivers an unmatched wireless broadband experience that will keep both traveling business professionals and casual users connected with the fastest and most reliable data services."

Alltel is rapidly expanding its high-speed network across the country. In the past year, Alltel has introduced Axxess Broadband in metropolitan areas such as Phoenix, Tampa, Charlotte and Cleveland; in smaller cities such as Little Rock, Ark., Raleigh, N.C., and Savannah, Ga., and in towns such as Jonesboro, Ark., Dothan, Ala., and Casa Grande, Ariz.

Alltel plans to launch Axxess Broadband in additional markets across the country in 2006, giving it one of the largest EVDO footprints of any U.S. carrier.

Axxess Broadband is available for \$59.99 a month for unlimited use with qualifying voice plans. In addition to supporting a wide range of productivity enhancing business applications, it enables Alltel's Axxess TV, with more than 25 channels, and XM radio, with 20 of the best satellite radio music channels. To experience the high-speed network, customers will need an EVDO-capable handset, such as the silver or fire red MOTORAZR V3m, or a laptop PC data card, such as the Kyocera Passport 1xEVDO PC Card.

For more information on Axxess devices, visit an Alltel Wireless retail store or log on to www.alltel.com. Alltel is owner and operator of the nation's largest wireless network and has more than 11 million wireless customers.

SOTTO HYBRID WIRELESS PHONE

ONE PHONE FOR OFFICE AND CELLULAR CALLING

Sotto's dual-mode Hybrid Wireless Phone solution incorporates both cellular and WiFi capability into one phone. This phone sends calls over the Internet (VoIP) using your company's wireless LAN in the office and uses the cellular network when you are away from the office. Usage of the wireless LAN improves your in-building wireless coverage – enabling you to avoid expensive cellular charges. The phone supports both your wireless voice and data communications. Sotto has partnered with industry leader Nokia to offer their new E61 Smartphone as our featured Hybrid phone.

HIGHLIGHTS

- Simplifies communications with one phone, one voicemail, and consistent features for office and cellular calling
- Takes advantage of extended wireless coverage in the office to deliver high quality voice everywhere you need it
- VoIP calling via Wi-Fi over your wireless LAN saves you money and minutes on your cellular plan
- QWERTY keyboard makes wireless email and other applications simple and convenient

| <div> <div>Compare</div> <div>Marketplace Results Showing - How The Search Results Work</div> </div> | | | | | |

Filter Results - This tool allows users to filter through hundreds of different plans and compare

- 1) Sorting by plan type, country, area code and city will let you know which providers are
- 2) Sort by actual providers and look at all the plans available for that individual provider
- 3) Sort by popular features and look at plans that only have the features you want.
- 4) Use the advanced search tool to sort by minimum and maximum price or select from help select the best voip provider.

Page Results - Sort through the results by average monthly costs, long distance rates, and user

- 1) Average monthly cost includes the equipment, setup fee, activation fee and monthly 1 divides that by 12 to give you the average.
- 2) Long distance rates include the amount of free long distance minutes the plan offers a minute after the free minutes are gone.
- 3) Click on the user ratings to see how users rated each provider for sound quality, reliability, features, price and overall rating. You can also add your own voip review.

Goal - Our goal is to provide our users with the most relevant information available so that they can make a decision. If you have any comments or suggestions to improve our product, please share those on our feedback page.

*911 over a VoIP service may not function in certain circumstances such as in the event of a loss of connection, or if you provide incorrect address information. For more information, please review your VoIP provider and visit nena.org

***E911 over a VoIP service is different from traditional 911 service in important ways. Click Here

We do not have any information about availability for services marked with "*"

Vonage Crosses 2 Million Line Mark

Holmdel, NJ, September 5, 2006 – Vonage Holdings Corp. (NYSE: VG), a leading provider of broadband telephone service, today announced it has exceeded 2 million lines in service.

"Activating over 2 million lines is a milestone for both Vonage and the industry," said Jeffrey A. Citron, chairman and chief strategist of Vonage Holdings Corp. "As we continue to grow our business, innovation will be a key focus. To move the industry forward we must create tools that enable people to communicate when, where and how they choose, on their terms."

Utilizing its innovative technology, Vonage sets the standard for the new generation of phone service with residential and business calling plans:

Vonage Canada pricing plans and features'

- **\$19.99/month** - Residential Basic Plan – 500 minutes of local, toll and long distance calling throughout the 50 United States, Canada and Puerto Rico.
- **\$39.99/month** - Residential Premium Unlimited Plan – unlimited calling throughout the 50 United States, Canada, Puerto Rico, France, Ireland, Italy, Spain and the U.K., anytime, anywhere.
- **\$55.99/month** – Entrepreneur Pro Plan – 1500 minutes of calling throughout the 50 United States, Canada and Puerto Rico including a dedicated fax line.
- **\$69.99/month** – Entrepreneur Unlimited Plan – unlimited calling throughout the 50 United States, Canada, Puerto Rico, France, Ireland, Italy, Spain and the U.K., including a dedicated fax line.
- Features included at no additional charge in all Vonage plans:
 - Voicemail
 - Caller ID
 - Call waiting
